

# Lesson 7: Using Histograms to Answer Statistical Questions

## Cool Down: A Tale of Two Seasons

The two histograms show the points scored per game by a basketball player in 2008 and 2016.

1. What is a typical number of points per game scored by this player in 2008? What about in 2016? Explain your reasoning.
  
2. Write 2–3 sentences that describe the spreads of the two distributions, including what spreads might tell us in this context.
