## **Teacher-facing Learning Goals**

• Ask and answer questions about data.

## **Student-facing Learning Goals**

Hagamos y respondamos preguntas sobre datos.

## **Lesson Purpose**

The purpose of this lesson is for students to ask questions about data that can be answered by a given data representation.

In previous lessons students answered questions about data using different representations. In this lesson, students begin by determining whether or not questions can be answered by a given representation. Then, students think of questions that can be asked about the data. Finally, students answer each other's questions.
