# Unit 6 Lesson 12: Posing Percentage Problems

### 1 Sorting the News (Warm up)

#### Student Task Statement

Your teacher will give you a variety of news clippings that include percentages.

- 1. Sort the clippings into two piles: those that are about increases and those that are about decreases.
- 2. Were there any clippings that you had trouble deciding which pile they should go in?

## 2 Investigating

#### Student Task Statement

In the previous activity, you sorted news clippings into two piles.

- 1. For each pile, choose one example. Draw a diagram that shows how percentages are being used to describe the situation.
  - a. Increase Example:
  - b. Decrease Example:

2. For each example, write *two* questions that you can answer with the given information. Next, find the answers. Explain or show your reasoning.

### 3 Displaying the News

#### **Student Task Statement**

- 1. Choose the example that you find the most interesting. Create a visual display that includes:
  - $^{\circ}\,$  a title that describes the situation
  - $^{\circ}\,$  the news clipping
  - $^{\circ}\,$  your diagram of the situation
  - $^{\circ}\,$  the two questions you asked about the situation
  - $^{\circ}\,$  the answers to each of your questions
  - an explanation of how you calculated each answer

Pause here so your teacher can review your work.

- 2. Examine each display. Write one comment and one question for the group.
- 3. Next, read the comments and questions your classmates wrote for your group. Revise your display using the feedback from your classmates.
