# Lesson 10: Dividing by Unit and Non-Unit Fractions

Cool Down: Dividing by $\frac{1}{3}$ and $\frac{3}{5}$

1. Explain or show how you could find $5 \div \frac{1}{3}$. You can use this diagram if it is helpful.

2. Find $12 \div \frac{3}{5}$. Try not to use a diagram, if possible. Show your reasoning.
