

## **Lesson 7: From Parallelograms to Triangles**

## **Cool Down: A Tale of Two Triangles (Part 3)**

1. Here are some quadrilaterals.

- a. Circle all quadrilaterals that you think can be decomposed into two identical triangles using only one line.
- b. What characteristics do the quadrilaterals that you circled have in common?
- 2. Here is a right triangle. Show or briefly describe how two copies of it can be composed into a parallelogram.
