

Lesson 14: Distances on a Coordinate Plane

Cool Down: Points and Distances

Here are four points on a coordinate plane.

1. What is the distance between points *A* and *B*?
2. What is the distance between points *C* and *D*?
3. Plot the point $(-3, 2)$. Label it *E*.
4. Plot the point $(-4.5, -4.5)$. Label it *F*.
