Unit 4 Lesson 15: Find Missing Side Lengths

WU Estimation Exploration: The Garden (Warm up)

Student Task Statement

What is the area of one of the large rectangles in the garden?

Record an estimate that is:

too low	about right	too high

1 Find the Missing Side Length, Part 1

Student Task Statement

Complete the table.

area (square feet)	length (feet)	width (feet)
816	24	
1,248		48
	23	253
5,796		36

2 Find the Missing Side Length, Part 2

Student Task Statement

1. Complete the table.

volume (cubic feet)	base (square feet)	height (feet)
375	15	
1,176		28

2. Clare wants to find the height of a rectangular prism with the following measurements:

volume (cubic feet)	length (feet)	width (feet)	height (feet)
882	6	7	

- a. First, Clare finds the quotient $882 \div 6$. What could she do next to find the height?
- b. Find the missing height to finish the problem for Clare.

3. Complete the table.

volume (cubic feet)	length (feet)	width (feet)	height (feet)
936	8		9
1,536		48	2
1,008	36
